

Aerosol Lab S51 Local Rules

June 2022

Prof. R. G. Grainger, r.grainger@physics.ox.ac.uk

For this room the following documents are relevant:

- [Risk assessment](#) for the Aerosol Laboratory (https://eodg.atm.ox.ac.uk/eodg/equipment/S51_LocalRules_v1.pdf)
- University policies: [S2/09](#)

A copy of these Local Rules must be appended to the relevant Risk Assessment and displayed on the door of the lab.

1. LABORATORY SAFETY RULES

- Access to the Laboratory is restricted to those authorised by Prof. Grainger to enter.
- Take note of door and understand the general hazards within the laboratory.
- Wear the correct PPE for each activity as described in the risk assessment.
- Do not take drink or food products into laboratories. Eating and drinking is forbidden.
- Do not leave equipment running without ensuring safe operation.
- Familiarise yourself with spillage and decontamination procedures. Any spillage should be cleared immediately, including dry powders on balances.
- Keep benches and floors clean and tidy, good housekeeping is essential.
- Do not borrow equipment or tools from the laboratory

2 ACCIDENTS / EMERGENCY PLAN

- Call University Security (tel **89999** within the internal network, or **01865 289999** from a mobile phone).
- If there is no response from University Security, call emergency services (**999**)
