

Preparation, timing, teamwork.

Successful fund management, like success on the river, doesn't just happen. It takes rigorous preparation, instinctive timing and a shared vision to stay ahead. Which is why all of our investments are backed by rigorous, team-based research and a shared vision to build high-performing funds. We believe this gives investors the best opportunity to have a place in the top boat.

The value of investments can fall as well as rise and you may not get back the amount originally invested. If you are unsure about the suitability of an investment please consult an authorised financial adviser.

This year's Summer Eights programme is the seventh to be produced as an official OURCs publication and I'd like to thank a number of people who helped in its creation. In particular; Jowita Mieszkowska for providing me with last year's template, BigBlade Photography for the use of their photos, Freddie Hamilton, Alex Pavitt and Henry Smith for their help seeking advertisers and proof reading and OURCs for having the crewlists on the website in such an easily copiable format. Also to Stuart Cope for his helpful advice on printing and Ben Bronselaer and all others who contributed photos. This programme would be quite blank without their help.

Finally thanks to the college captains and squad presidents for providing details of their committees and crews in reasonable time and Jonathan Williams for the OURCs report. This programme could not have been produced without their input.

Good luck to all the crews racing this week and my appreciation goes out to OURCs and all of the marshals, umpires, launch drivers, boatmen, rowers, coaches and coxes for making such a wonderful event happen yet again.

Aidan Walker

Watching Eights

Perhaps one of the most exciting forms of racing; the aim of bumps is to hit the boat starting ahead of you on the river and as a result, take their place on the following day. If it becomes too unsafe (or a swan gets in the way) races will be **klaxoned** and called off. Keep track of everyone's progress with the DIY bumps charts on the next double spread and listen out for results announced over the tannoy after each division.

Timings (provisional)

(Note all divisions are an hour earlier on Saturday; except Mens VI & VII and Womens VI which are an hour and five minutes early)

Men	Div VII	12:00
	Div VI	13:15
	Div V	14:20
	Div IV	15:40
	Div III	16:45
	Div II	17:45
	Div I	18:45
Women	Div VI	12:40
	Div V	13:45
	Div IV	15:00
	Div III	16:15
	Div II	17:15
	Div I	18:15

Glossary

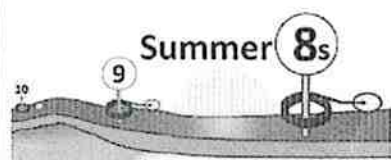

Bump - when a boat catches the one in front and makes contact with it, or the coxswain of the boat in front concedes in order to avoid damage to people and equipment. Alternatively, a bump is awarded if a crew fully overtakes the crew in front. Two crews involved in a bump switch places in the start order for the next day's racing.

Headship - being the highest placed crew on the river (i.e. Bungline 1, Division 1), with no one ahead to bump.

Blades - a crew wins blades by bumping the crew ahead on each of the 4 days.

Spoons - a crew is assigned 'spoons' if they are bumped on each of the 4 days.

Follow online

Official updates to the starting order, including diagrams of the previous day's bumps, are published daily on the OURCs website at www.ourcs.org.uk

Summer Eights Rules

Bumps racing can be very confusing when you are new to it, so here is a small summary of the main rules to explain how it all works.

For more information visit www.ourcs.org.uk/rules/a

Eights shall consist of 7 men's divisions and 6 women's divisions, with the top 5 men's divisions and the top 4 women's divisions designated "Fixed Divisions", and the remainder "Rowing On Divisions".

The starting order shall be the finishing order of the previous year's Fixed Divisions.

Divisions shall consist of 13 boats, plus the "Sandwich Boat", except for the bottom division, which shall consist of 14 boats.

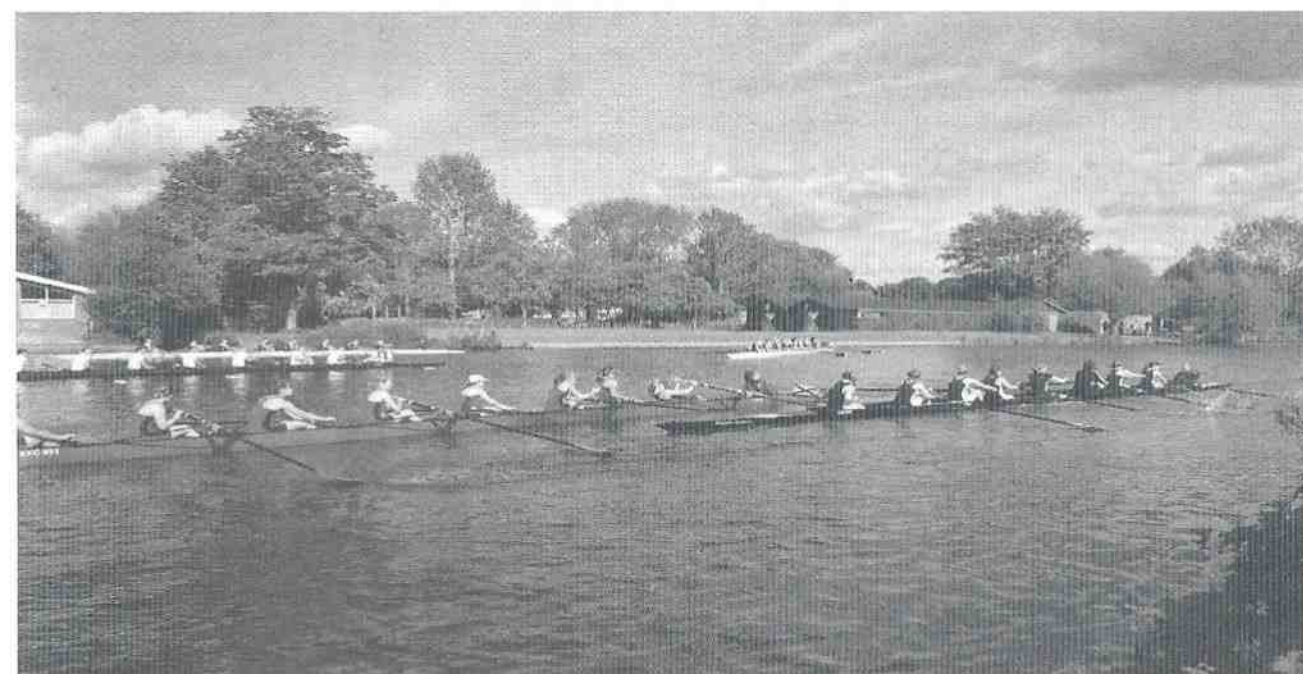

The boat that finishes first in each division may row as "Sandwich Boat" at the bottom of the division above in the same day's racing.

Each boat shall be started from a rope 50 feet in length, held by the coxswain, with the other end of the rope fastened to a post on the tow path. The distance between each starting post shall be 130 feet.

Not less than 5 minutes before the start of the division, the Senior Umpire shall order the firing of the 'Five Minute Gun'. 4 minutes later, or later if safety dictates, the Senior Umpire shall order the firing of the 'One Minute Gun'. 1 minute later, another gun shall be fired to signal the start.

On achieving a bump, a boat ceases to be part of a race, and the boat bumped also ceases to be part of the race.

A boat shall be liable to be bumped until every part of it has crossed the finishing line.

*The starting order for Women's Divisions 5 & 6 has been determined by the Rowing On races held on Friday 20th.

A brief history of bumps racing in Oxford

The details of collegiate rowing's origins in Oxford are lost in the mists of time, but the sport seems to have become popular by the end of the eighteenth century as a form of friendly recreation.

The first Summer Eights racing is thought to have occurred in 1815, a few months before the battle of Waterloo, when crews from Brasenose and Jesus decided to race home from Iffley Lock. Brasenose won, making them the first official 'Head of the River' crew. The competition became annual, racing from Iffley Lock to a finish line on Christ Church Meadow, marked by a flagpole on Isaac King's barge moored at the meadows bank.

By 1826 four colleges were involved and had devised bumping rules, the order of flags on the King's Barge flagpole indicating which crews had swapped places between race days. More colleges joined, and it was normal practice, in those days before academic league tables, for the crews to row down to Sandford in the afternoon. They would spend a while playing skittles or doing gymnastics, before rowing upstream again, with practice bursts in the stretch between Sandford and Iffley locks, to race one division. All racing stopped behind any crews which bumped, only those ahead continuing to try and achieve their own bump. Race days were interspersed with rest days, so the whole event spread out over a week.

In 1840, after high winds the previous year had disrupted racing, the current three-cannon starting system was put in place, and the 14 colleges then involved began the practice of 'bumping out' to the opposite bank, so that boats behind could carry on racing past them. By this time a parallel event, 'Torpids', had already started for second crews, initially on the days between 'Eights' racing, though in 1852 it moved to the spring term.

Meanwhile 'Eights' was becoming longer and longer, on the principle that enough racing days should occur for every boat, even that starting bottom, to be able to reach the Headship. Eventually a maximum of 8 days racing was decreed, and over time this has dropped to four.

During the 1870s the 20 or so colleges competing became split into two divisions, each crew starting 130 feet from the one behind it.

By 1908 the entry was expanded to allow second crews into Eights, and after a gap of six years for the first world war (1914-1919) racing resumed in 1920 with increasing popularity. More divisions were added, and in the early 1930s the 'Getting On Races' (now 'Rowing On') were devised to determine which crews should occupy the final slots. The formal event was again suspended for war (1939-1945), although informal bumps-style races were held, and in 1946 the event was revived using the 1939 starting order.

Although women's rowing had existed at the university since the 1920s, and some women rowed in men's crews, there were no solely women's crews in Summer Eights until St Hilda's women entered the 1969 event by successfully rowing on and competing against the men. After the all-male undergraduate colleges started admitting women during the mid-1970s, a women's division was created in 1976, with Wadham ending the first year as Head of the River. The balance of divisions between the sexes has now almost evened out, and women have been coxing men's crews, and *vice-versa*, for many years.

That isn't the only change in the last century. We now use carbon fibre boats and oars instead of wooden ones, wear cotton lycra 'all-in-ones' instead of shorts and shirts (or bloomers for the women), and in this electronic age, racing is photographed, timed, videoed, commented on and tweeted to the world. The format, however, still has much in common with those early-nineteenth century races, even if the equipment looks very different.

(With grateful thanks to Anu Dudhia, whose 'History of Oxford College Rowing' remains the definitive guide to all things Isis-rowing-related, and was the major source for this article, written in previous years)

Oxford University Rowing Clubs OURCs

It is my pleasure to welcome you to the Neptune Summer VIII's 2016, we are very grateful to Neptune for their continued support of the event and OURCs.

For the uninitiated, Summer VIII's is an event run annually on the Isis, which traces its roots back to a race between Jesus and Brasenose in 1815. We were treated to a re-enactment of this first race in period boats and clothing at last year's event. While we don't have such a spectacle for you this year, we do have the usual exciting racing. College bumps racing is a unique event, as you will find people who only picked up an oar for the first time a matter of months (or even weeks) ago in the same competition as international rowers of many years' experience. The aim of the game is to catch the boat in front before the boat behind catches you! This often leads to very tense encounters and hard-fought battles as crews fight tooth and claw for every inch.

To the competitors, I wish you the best of luck. May your blade work be clean and your bumps unambiguous!

'ECBC would like to thank Professor Raymond Dwek, CBE FRS FRSC and all the other donors and alumni who gave so generously to raise money for the two new eights being raced for the first time this week. Thanks also go to the executive committee and ECBCA, who continue to shepherd the boat club through its renaissance together, to our men's coach, Simon, and all that he has achieved in his first year at Exeter, to Caroline, who is leaving us this year after such success with the women's squad, and finally to the Lee and Knibbs families, without whom the college flag would not be flying over the boat house today.'

In the real world change is happening at an unprecedented rate. As many business models and traditional economic assumptions become redundant in the face of this change, investors who try to second-guess volatile markets are likely to find themselves investing in yesterday's companies.

Take technology for example. Technological disruption has already brought dizzying change to our world but in the next decade we believe it can utterly transform the shape of world stockmarkets, impacting companies from the energy sector to retailers,

telecommunications to car manufacturers. It is our belief that understanding this change in the real world will be one of the most important tests for active stock pickers.

This is the age for real world investors.

The value of an investment and the income from it can fall as well as rise and you may not get back the amount originally invested. If you are unsure about the suitability of an investment, please consult an authorised financial adviser. Forecasts and past performance are not a guide to future performance. These are Neptune's views and as such

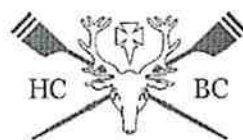

this document is deemed to be impartial research. We do not undertake to advise you of any change to our views.

References to specific sectors are for illustration purposes only and should not be taken as a solicitation to buy or sell these sectors.

For more of our real world views, visit realworldinvestors.com or follow us @Neptune_funds

OULRC Development Squad 2016

Join us for the OULRC development squad from the beginning of 6th week to the end of 8th week, with the possibility of further coaching/racing during the summer vacation.

The squad is an opportunity to row out of the university boathouse on the 10k stretch of river at Wallingford, and to train on the dynamic ergs in the Iffley gym. If you are thinking of trialing for the lightweights in September **this is the place to start.**

You will receive quality coaching, invaluable training in small boats and solid race experience and an end of camp barbecue. You will also be provided with a training plan for the Summer at the end of the three weeks.

If you are a Cox then **WE WANT YOU.** Any Cox joining us for Dev Squad would receive coaching specific for coxes as well as invaluable experience coxing on a different stretch of water, race experience and would also have a very real chance to **cox next year's Lightweight Blue Boat.**

If you're lightweight now (or even weigh up to 80kg) be sure to contact our incoming president Rowan Arthur at president@oulrc.org for more information.

Alternatively visit our website www.oulrc.org or search for us on facebook/twitter.

This season was one of mixed fortunes for the OUBC. After securing its first hat-trick of Boat Race wins since the early nineties, the Blue Boat was unable to complete the four-peat. Isis, however, maintained its dominance and won against Goldie for the sixth successive year. In many ways this year's squad was built from the bottom up, and that showed in our results at the Fours Head and in Trial Vills. The latter was a particularly exciting affair. In a race between Business and Pleasure, Pleasure won by no more than a canvas. This close racing experience would prove invaluable on race day as Isis had to work hard on Middlesex to come from behind at Chiswick Steps to get the victory. In some of the worst conditions the Tideway has seen

in the past half century, the Blue Boat was unable to replicate the winning performance of Isis. After getting ahead at Hammersmith the Light Blues were able to build on their lead through the rough water along the Eyot and ran out as winners of this year's race. Hanging tough, Oxford committed itself all the way to the line and actually decreased Cambridge's winning margin at the finish. Looking ahead the squad will be in a very strong position next year, and I look forward to seeing the Dark Blues on winners podium once again.

Morgan Gerlak
OUBC President 2015-2016

The season started in September with lots of people from our development squad joining a few returners and some new faces. This part of the season saw the long miles being put in to build up the squads base fitness. We were also lucky enough to move into the new state of the art Fishlock boathouse with OULRC. Unfortunately our Head Coach Bodo Schulenburg had to leave us in Michaelmas, Mike Hill replaced him in mid November. The internal competition increased as we moved closer to the Trial Eights race in December, where two matched eights race down the course at Henley on Thames. This year Rebellion beat Empire by $\frac{1}{2}$ a length. After a brief break over Christmas we met up again in Soustons, France for our winter training camp. This was an opportunity for us to make big steps forward technically with 2 water sessions everyday for 12 days. It also allowed Mike to put his mark on the squad and get us rowing in his style. After moving back to the UK selection was finalized quite early on giving us time to bond as a crew. The weather was bad at times which meant we missed a number of outings but these were replaced with hard ergs/tech stuff in the tank. We had various match races to test the crew under pressure including Quintin BC and Upper Thames

RC. For the week before the Boat Race we moved to Henley. This year saw the Reserves race reintroduced with a quads race on the weekend before. The Oxford reserves lost by $1 \frac{1}{4}$ Lengths, a commendable effort as they'd only had a few weeks together and had been sweep rowing all year. With this race already confirmed for next year we will be able to prioritize it properly and have it as a major target along side the Blue Boat race. The Boat Race was a very tough defeat to take this year. Not performing to the best of our ability is devastating, but that is the nature of this race, you only get one shot. We all know we've been rowing well and going fast, it's just a shame it didn't come out on the day. Being President of this club is very demanding, especially when balancing it with 12 training sessions per week, but it is hugely rewarding, and I would encourage anyone who is interested to join our development squad for a taste of what trialling with OULRC is like. I would like to thank the whole squad for everything they've given the club in the last year, and to wish Rowan Arthur the best of luck as he takes over as President for next year.

The OUWBC has had another successful and exciting season that culminated in our Blue Boat winning the Boat Race for the fourth consecutive year on Easter Sunday. This year's Boat Race will go down in history as a true classic; marked by horrendous weather conditions, true grit, and thrilling tactics!

Earlier in the season both crews enjoyed substantial success against clubs and universities from across the country as we prepared to race Cambridge. Once again our Blue Boat won the women's pennant at Quintin Head of the River, while good racing experience was gained by the whole team at the

British Championships, the Four's Head of the River, and our annual Trial Eights Race. Most recently, we sent several crews to compete at the British University Championships in Nottingham, coming home with a Gold medal in the Championship 2- and Silver in the Championship 1x, and four of our athletes are currently on track to race for Great Britain this summer at the World Under-23 Championships and FISU regatta.

Maddy Badcott
President of the Oxford University Women's Boat Club 2015-16

OUWLRC ran a large and successful Development Squad after Summer Eights, with over 50 athletes involved, cumulating in entering an eight at Henley Women's Regatta. Returning athletes learnt or improved their sculling and raced at Henley Women's, Kingston and picked up a number of pots at Reading, Molesey, City of Oxford and Henley Town and Visitors.

The season began with around 30 athletes that became a working squad of around 20. Unfortunately, adverse conditions meant that we were unable to enter a couple of regional races (Bristol Head, Upper Thames Autumn Head). However, a number of athletes gained a great deal of experience from competing in Pairs Head, Fours Head and British Championships. Pairs Head was particularly successful with wins in both the elite lightweight and IM3 2x categories. We also sent two athletes and a cox to GB trials.

At the end of Michaelmas two boats were selected for Trial Vllls, which took place on the Henley Reach. After Christmas 17 rowers and 3 coxes travelled to Ourense, Spain, for our 10-day winter training camp where we began selection for the Blue Boat and Tethys. Both the Blue Boat and Tethys were able to gain valuable side-by-side experience from a considerable number of match fixtures against a number of clubs including Molesey (3rd at WeHoRR), Imperial, Oxford Brookes, Wallingford Rowing Club and Headington School (9th at WeHoRR). These fixtures were challenging but prepared the Blue Boat for the race of their lives. Tethys also had a number of match fixtures before racing at Women's Head.

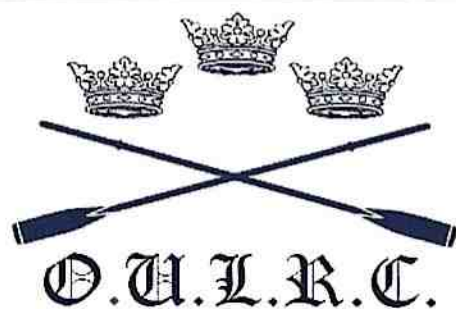

(c) BigBlade Photography

This year saw one of the closest and most exciting races in lightweight boat race history, with our blue boat coming back from $\frac{3}{4}$ of a length down to win by a canvas. It takes real grit, determination and mental strength to come back from so far behind and for that reason I believe that this year we produced a truly exceptional crew. This year's boat race also saw the first official lightweight pairs reserve race. Despite our loss by $\frac{3}{4}$ of a length we were very happy to have been given the opportunity for two of the Tethys athletes to race on boat race day and we hope that this continues.

Following our boat race win we had a number of strong performances at BUCS regatta. A Blue Boat/ Tethys composite picked up a silver medal in the Championship Lwt 8+, beaten by a strong Exeter crew. We also picked up bronze medals in the Lwt 4- and Lwt 4x and saw an impressive performance in the Lwt 1x (7th). The bronze in the Lwt 4x has qualified us to represent GB universities at EUSA in July.

Our boat race success and performances at BUCS have shown that our programme remains competitive with the top lightweight programmes in the UK. If you've ever considered University, would like to take your rowing to another level or are interested in trialing for the the 2017 Boat Race then OUWLRC invites you to join their Summer Development Squad. We are looking for women (rowers and coxes) who are currently less than 65kg (55kg for coxes), have lots of enthusiasm for rowing and the desire to learn and improve. We'll be running our Development Squad after Summer Eights with an email being sent out shortly.

Lucy Roberts, OUWLRC President 2015-2016
